YOSSA NGAMELEU

ERIKA LEONELLE

SOFTWARE DEVELOPPER AND PROJECT MANAGER

PROFILE

Full-stack Software Engineer and Project Manager specialized in logistics optimization, traceability systems, and secure hybrid applications. Passionate about structured documentation, scalable architecture, and delivering tailored digital solutions with clarity and precision.

WORK EXPERIENCE

- **MARYLIS LOGISTICS** 2024 - PRESENT
Software developer
 - build robust modules for managing products, suppliers, orders, and internal messaging.
 - Ensure operational traceability through well-structured SQL scripts and logging mechanisms.
 - implement access control, data validation, and protection against SQL injection.
 - Monitor brand consistency across marketing channels and materials.
- **HOPITAL CBC BETHESDA DE MALANGUE** 2023 - 2024
Intern
 - Participated in the analysis and optimization of patient data flows (admissions, consultations, prescriptions).
 - Contributed to the structuring of digital forms and secure archiving systems.
 - Documented processes and technical specifications for ongoing digital projects.
